ABOUT ACER

PRODUCTS

SOLUTIONS

ADDITIONAL RESOURCES

OUR STRENGTHS

Acer's commercial products were made with users' needs in mind: built to be adaptable and suited for diverse work environments and scenarios.

With the evolving needs for modern hybrid working and learning environments, we are committed to delivering a versatile, easy-to-use, and easy-to-manage portfolio suitable for the needs of business and education today, and for overcoming the challenges of tomorrow.

Experience

With more than 40 years of experience in the world of computing, we deliver superior business solutions that best meet customer requirements.

Service

Acer partners and customers receive outstanding assistance, including technical support, a collect-and-return service, updates on the latest technologies, and online trainings.

Reliability

Acer offers a wide range of innovative features and products that are built and tested to last. Our reliability is proven by industry-standard military grade certifications, acknowledged with service awards, and complemented by professional warranty services.

Success

Acer is committed to provide optimized solutions and offerings, seeking maximum mutual benefits among customers, channel partners, and Acer.

Support

Acer supports partners and their customers at all levels and our compelling tools and channel programs are designed to make it easy to work with Acer.

Range

Acer provides channel partners with a comprehensive range of products and solutions designed to deliver the best performance, security, and manageability.

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE (ESG)

Acer engages in ongoing review and promotion of important sustainability issues and strives to incorporate sustainable development policies into daily operations. We have established an ESG governance pipeline for the communication of relevant issues, implementing a variety of resolutions and pursuing stronger governance. We review the overall environment and the expectations of our stakeholders to plan Acer ESG policy and more deeply integrate ESG into our overall value chain to boost ESG performance.

COMMITMENT TO UN'S SUSTAINABLE DEVELOPMENT GOALS

Acer is committed to adhering to the United Nations' Sustainable Development Goals by leveraging its core competencies in technology, products, and services to address societal and environmental needs.

GLOBAL RECOGNITION OF SUSTAINABILITY EFFORTS

Acer's endeavors in developing eco-conscious products and environmental-friendly initiatives have been recognized by worldwide media and design experts, a testament to the fact that these efforts are resonating with industry trends.

Multiple Vero products won the 2022 Good Design Awards: namely the Acer Chromebook Vero 514, the Acer Veriton Vero all-in-one, and the Acer Vero CB3 series monitor. The Aspire Vero laptop added to its growing list of accolades with the 2022 iF Design Award and 2022 Red Dot Award, and was selected as Sustainability Product of the Year by the Business Intelligence Group.

Acer's eco-friendly packaging, film, animation, and Project Humanity campaign designs earned the 2022 Red Dot Brands & Communication Design Award for their creative communication and design excellence.

The award-winning Project Humanity campaign won a Shorty Impact Award in the "Best in Employee Engagement" category. The award celebrates the most impactful and purpose-driven works on digital and social media that make the world a better place.

DOW JONES SUSTAINABILITY INDICES

Member of
Dow Jones Sustainability Indices
Powered by the S&P Global CSA

Acer achieved full marks of 100 as well as scored in the top 100th percentile across various components: Materiality, Risk and Crisis Management, Innovation Management, Environmental Reporting, Social Reporting, Human Capital Development, Customer Relationship Management.

2022 MSCI ENVIRONMENTAL, SOCIAL, AND GOVERNANCE INDEXES

Acer has been listed on MSCI Indexes since 2014. Acer demonstrates strong initiatives for improving its supply chain labor standards and transparency in sourcing of conflict minerals.

2022 MSCI ESG Leaders Indexes Constituent

EARTHION

Earthion is the union of 'earth' and 'mission,' highlighting our focus on tackling our generation's greatest environmental challenges through innovative and integrated solutions.

In addition to designing our products to meet the ever-changing needs of businesses and schools, sustainability remains at the forefront of our minds as we seek to provide eco-friendly solutions to all walks of life. To this end, we work with our suppliers towards six specific goals that guide our collective efforts in seeking sustainable solutions for a better tomorrow. With goals ranging from how we design our products to how they're delivered, we provide products and solutions that aim to reduce the tech industry's impact on the environment. And, with your support, we can achieve our monumental goal of leaving behind no carbon footprint.

And, with your support, we can achieve our monumental goal of becoming carbon neutral.

EARTHION

SUSTAINABILITY GOALS & MILESTONES

RE100
joined the global RE100 initiative and pledged to use 100% renewable electricity by 2035

20-30%
PCR (post-consumer recycled) plastic content in computers and displays by 2025

30M
Over 30 million units used post consumer recycled plastics (2020-2022)

44%
renewable electricity usage by Acer Group in 2022

60%
of critical suppliers completed RE100 or science-based carbon reduction target (SBT) setting

45%
less energy consumption by 2025 (compared with the baseline year of 2016) of Acer products

80%
of critical suppliers commit to RE100 or science-based carbon reduction target (SBT) setting by 2025

PRODUCT DESIGN

Acer Vero devices can be recycled and are made with sustainable materials such as post-consumer recycled (PCR) and ocean-bound plastics to reduce their environmental impact from start to finish.

SUSTAINABLE MATERIALS

We work with suppliers to integrate more eco-friendly materials into our Vero devices.

REPAIRABLE AND UPGRADABLE

Our products are intentionally designed to be easy to disassemble, repair, and upgrade to further extend their lifecycle.

ENERGY EFFICIENCY

We work with partners to continuously reduce energy consumption, improve battery lifespan, and become more efficient.

30M+
Over 30 million units used post-consumer recycled plastics in 2020 to 2022

17%
17% of post-consumer recycled (PCR) plastics used in computers and displays

No surface paint on specific models. Applied low VOC print on product stickers

PACKAGING DESIGN

The packaging of our Acer Vero notebook employs minimalistic and eco-conscious elements, incorporating 90% recycled paper and post-industrial recycled (PIR) polyester, designed for extended usability.

REDUCING PLASTIC

We work with suppliers to reduce the amount of plastic used in our packaging, such as replacing plastic handles with paper handles.

RECYCLABLE PACKAGING

Our choice of materials and printing method ensures packaging materials can be easily recycled to start a new packaging journey!

90%
Cardboard boxes are made from 90% recycled paper

100%
Molded pulps are made from 100% recycled kraft paper

100%
Non-woven fabrics are made from 100% recycled PET

40%
Printed materials are made from 40% recycled paper

FSC
Posters are made from FSC certified paper
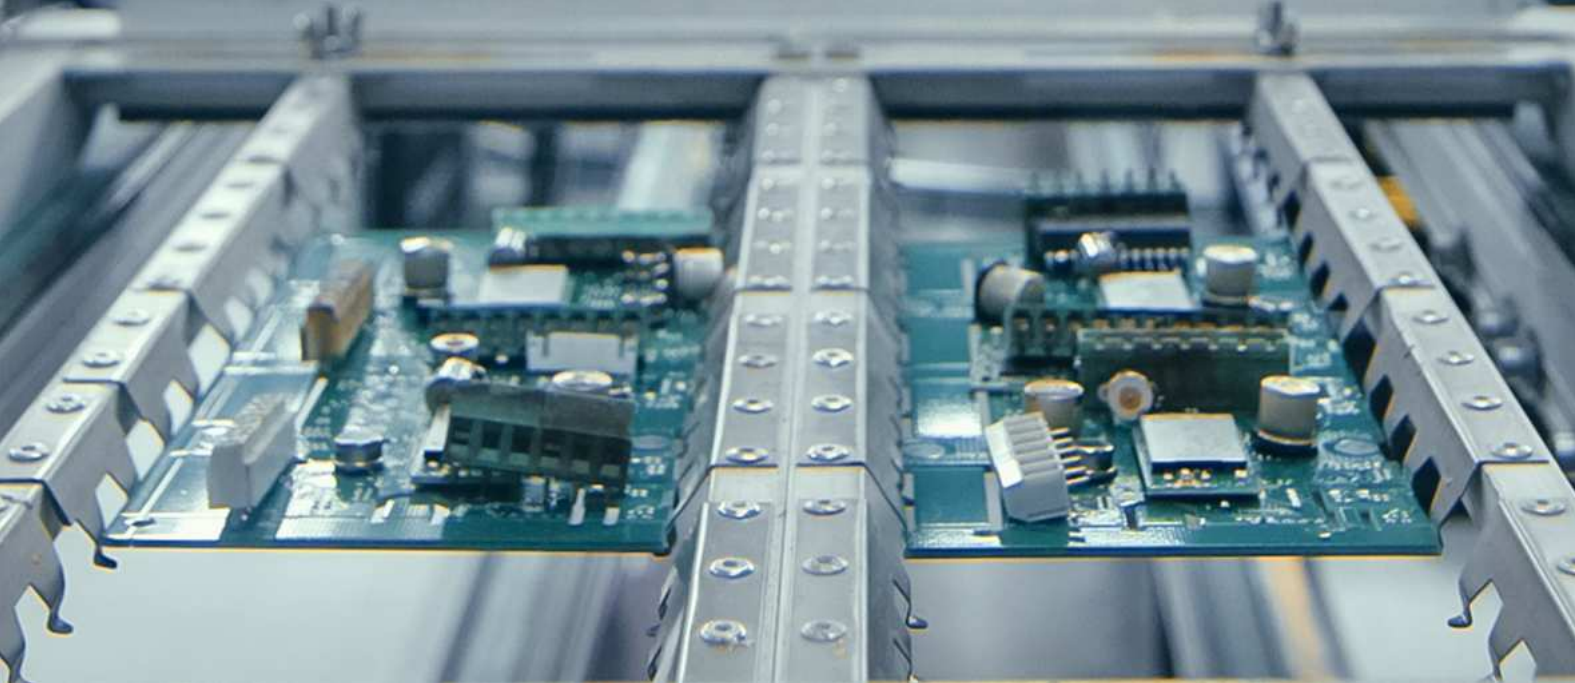

PRODUCTION

We work with industry partners to rethink the production process and improve chemical and waste management.

WASTE MANAGEMENT

Plastic usage during the manufacturing process is a hidden threat to the environment. Starting with removing plastic bag usage from the power cord production of our products, we also bring changes to our suppliers' manufacturing system.

69%
In 2022, 69% of our notebook, desktop, and monitor products obtained the ENERGY STAR certificate

13%
In 2022, 13% of our products are EPEAT registered and 10% are TCO Certified

7.1M
In 2022, over 7.1 million of phthalates free products were shipped.

LOGISTICS

Our optimized logistics and transportation allow us to cut unnecessary waste and reduce greenhouse gas emissions.

WASTE REDUCTION AT THE SOURCE

We remove the usage of redundant and unrecyclable security tape from product lines, starting from our monitor lines.

RESPONSIBLE LOGISTICS SYSTEM

We developed a carbon accounting system to optimize the way we do our logistics, so our systems allow for logistics optimization based on our shipment record data.

RECYCLING

Channel and recycling solutions give our products and materials a new purpose at the end of their lives.

PRODUCT RECYCLING

We actively support a variety of measures promoting recycling around the world, along with Individual Producer Responsibility (IPR), and are committed to working with stakeholders including governments, consumers, and channels/retailers to shoulder the responsibility for recycling and managing electronic waste.

Around the world, Acer follows local government standards for various electronic product recycling programs and provides convenient recycling methods for consumers to improve the efficiency of waste recycling in the hope of contributing to resource sustainability.

ENERGY

Our operations use renewable energy such as solar to keep fossil fuels where they belong—underground.

RENEWABLE ENERGY AT OPERATING LOCATIONS WORLDWIDE

The total power generation for the whole year in Acer Group was around 3.8 million kWh. Compared to 2020, this amount is an increase of approximately 450,000 kWh.

SMART CHARGING SOLUTION

Acer subsidiary Acer ITS's charging solution is the first in Asia to launch smart parking charging stations for roadside parking.

65%

65% renewable energy used in our IT products business operations

13M

We used over 13 million kWh and generated 3 million kWh of green electricity in 2022

IT'S TIME FOR POSITIVE IMPACT

ACER VERO

We are all part of a global community - members of an extended family that share a responsibility to respect and protect the environment.

While we continue to push the boundaries of progress and innovation with our products at Acer, we also work to reduce the environmental footprint of our devices. And with our Vero range of devices, we're just getting started.

Acer Vero is more than just another product line up. It's a tangible manifestation of Acer's commitment to more sustainable operations.

POST CONSUMER RECYCLED

Made from PCR[1] plastics to lessen the environmental burden on the planet

VeroSense™

VeroSense™ control allow the selection of usage modes that are optimized for energy efficiency and battery life

Upgradable design that's easy to disassemble to simplify repairs, upgrades, and end-of-life recycling

reddot winner 2021 packaging design

100% Recyclable Package

Award-winning 100% recyclable packaging that can be repurposed as a DIY laptop stand

ENERGY STAR

epeat

ENERGY STAR and EPEAT communicates environmental performance including power management, materials selection, design for circularity, product longevity and end-of life management

ACER ECO-FRIENDLY PRODUCT

LIFE CYCLE MANAGEMENT

Our sustainable products are designed to meet today's eco-conscious standards. This means rigorously controlled core material selection, green supply chains in line with international environmental practices, and efficient recycling for products at the end of their lifespan.

We carefully consider waste and energy usage when manufacturing our products to vastly reduce the pollutants and hazardous substances that go into them while ensuring they are easy to recycle.

To reduce the impact of heavy metals on the environment, we recover metals in batteries for reuse in new products. In 2020, we recycled 2.2 tons of waste batteries, in addition to 200kg of CDs and cables, and about 900 units of consumer electronic products from all brands, for a combined estimated reduction of about 12 tons of CO_2 emissions.

With Windows 11 or ChromeOS, we also build cloud-based devices with an overall lower carbon footprint, helping to drive digital transformation towards a more sustainable future.

Acer Bluetooth Mouse B501

CERTIFIED BY WORKS WITH CHROMEBOOK

The Acer Bluetooth Mouse B501 is Works With Chromebook certified, ensuring that it will work seamlessly with your Chromebook. This mouse includes internationally certified antimicrobial[1, 2, 3] (silver-ion) solutions on its surface. At 1000 DPI, you'll enjoy reliable, responsive control when you're navigating while its comfortable shape gives both right-handed and left-handed users an enjoyable experience.

- Certified Works With Chromebook Accessory
- Acer Antimicrobial 360 Design
- Optical Sensor with 1000 DPI
- Designed for Both Right-handed and lLeft-handed Users
- Battery can Last Up to One Year Between Battery Change

1. All antimicrobial solutions do not protect or provide users any direct or implied health benefits.
2. The amount of silver ions will be affected by humidity and temperature.
3. The wheel on the mouse is not coated with antimicrobial treatment.

Acer USB Type-C Mini Dock MD101 - Certified Works With Chromebook

The Acer USB Type-C Mini Dock MD101 is a Works With Chromebook Certified USB Type-C hub with automatic firmware updates that enables one USB Type-C port to connect to your monitor, peripherals, and storage devices.

- 4K 60Hz HDMI Output
- Supports Up to 100W PD 3.0 Pass-Through
- The Two Built-in USB Type-A Ports Also Allow Data Transfer Up to 5Gbps
- Equipped with a Gigabit Ethernet Port

Acer Bluetooth Keyboard and Mouse KM501

CERTIFIED BY WORKS WITH CHROMEBOOK

The Acer Bluetooth Keyboard and Mouse KM501 are works with Chromebook certified, ensuring that they will work seamlessly with your Chromebook. Both keyboard and mouse feature antimicrobial[1, 2, 3] silver-ion solutions on their surfaces, while the new Chromebook keyboard layout takes up less space than standard keyboards for a cleaner and more spacious desk area. The Bluetooth mouse gives you responsive control and a comfortable navigation experience with its 1000 DPI.

- Certified Works With Chromebook Accessory
- Acer Antimicrobial 360 Design
- Occupies Less Space than Standard Keyboards
- Designed for Both Right-handed and Left-handed Users
- Battery can Last Up to One Year Between Battery Change

1. All antimicrobial solutions do not protect or provide users any direct or implied health benefits.
2. The amount of silver ions will be affected by humidity and temperature.
3. The wheel on the mouse is not coated with antimicrobial treatment.

Acer Webcam W501

CERTIFIED WORKS WITH CHROMEBOOK

The Works With Chromebook certified Acer Webcam W501 lets you video call confidently. With FHD video quality and 360° rotatability, this webcam for Chromebooks is perfect for conference calls, classes, and working from home.

- Full HD Webcam
- The wide, 82° Lens Angle
- Built-in Privacy Shutter
- Built-in Omnidirectional Microphone
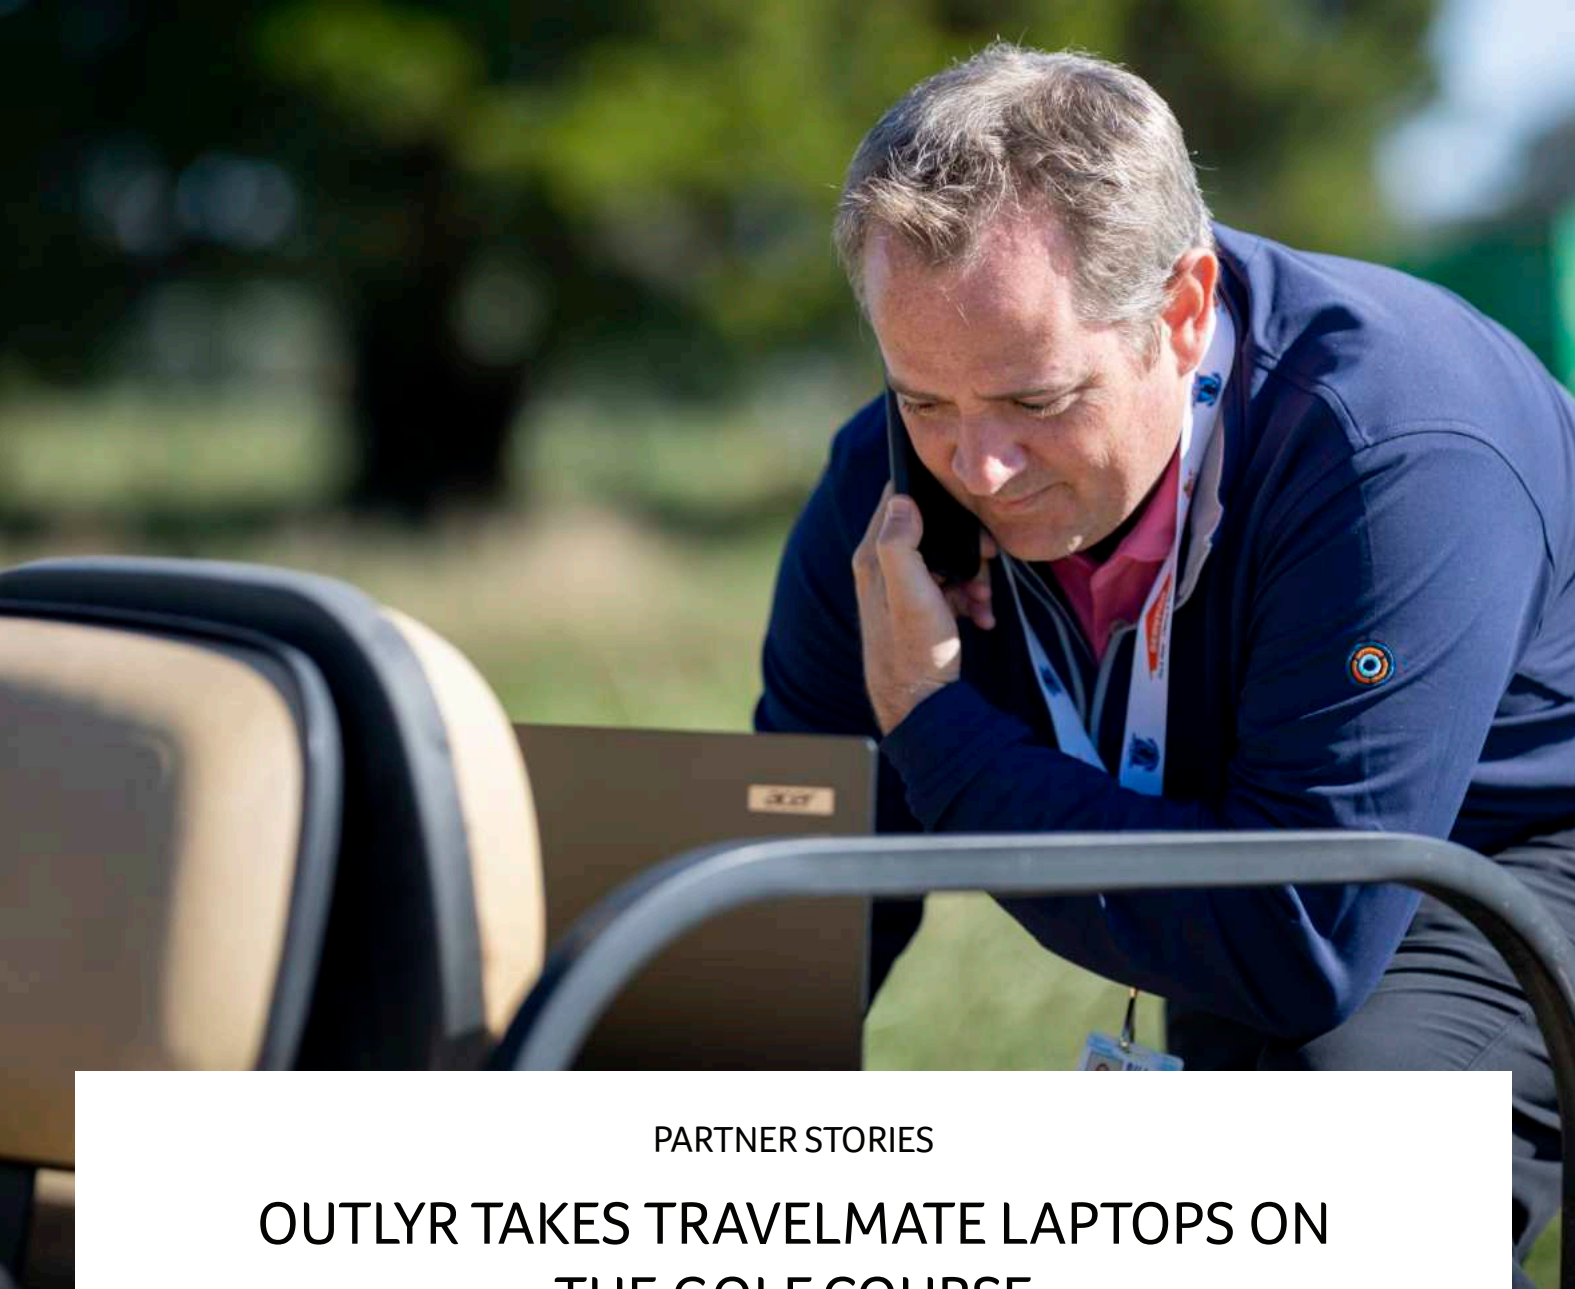

OUTLYR TAKES TRAVELMATE LAPTOPS ON THE GOLF COURSE

When Outlyr needed to equip their team with portable, durable, reliable, and easily deployable laptops, they turned to Acer and chose the TravelMate series. Producing more than 300 events each year, such as the ShopRite LPGA Classic Presented by Acer, Outlyr's 60-plus employees must pay close attention to detail.

To keep events flowing smoothly, the Outlyr team used TravelMate devices to input information in real time so that tee times, games, and other changes could be updated automatically and give everyone precise and up-to-date details.

The lightweight TravelMate laptops are easy to carry and use on the golf course, and their impact- and weather-resistant design stands up to the wear and tear of regular outdoor use. They have enough battery life to get through a long day without access to power, the latest processors to ensure fast performance, advanced security to enable secure operation, and Thunderbolt and USB-C ports to allow pairing with other devices.

"Knowing that we have computers that we can trust and rely on, and not have to always worry about things breaking down … is very important to us," said Jen Tierney, Senior Director at Outlyr.

The growing team at Outlyr trusts Acer. And paired with the TravelMate series, they're well-equipped to pull off events without a hitch and uphold their reputation for meticulous planning and flawless execution.

ACER POWERS A LEADING ASIA PACIFIC AUTO-MOTIVE PART SUPPLIER

GPC Asia Pacific is a leading provider of aftermarket car parts with a strong presence in Australia and New Zealand, supplying prominent businesses such as Repco, NAPA, Sparesbox, AMX Superstores, and more. The company's scale, buying power, and unmatched logistics make GPC Asia Pacific a leader in the region, with annual sales of more than AUD 1.5 billion. With close to 100 years of operational experience, the largest store footprint in the industry, and a customer-focused genuine service ethos, GPC Asia Pacific needed to ensure it was also delivering exceptional customer service with the latest, industry-leading technology.

Acer has been a vital hardware supplier for GPC Asia Pacific since 2016 and has provided the car parts supplier with a variety of high-performance notebooks, desktops, and monitors - with the versatile TravelMate P6 Spin 14 being the most recent example.

Not limited to only providing industry-leading hardware, Acer also offers various managed services in the form of pre-loading SOE images via domain links, applying asset tags, deployment, and disposal of assets. Throughout the relationship with GPC Asia Pacific, Acer has assisted over 550 different sites across Australia and New Zealand.

INSPIRE POTENTIAL

Technology is breaking teaching boundaries with new and dynamic hybrid classroom formats while also enabling information to be accessible at the touch of a button. Acer for Education aims to utilize these new technologies to inspire potential in every aspect of the education system, so educators and students can succeed in the classroom and beyond.

RUGGED SOLUTIONS FOR THE CLASSROOM

Classrooms are a busy place, and Acer's rugged devices are designed to keep both students and teachers focused on learning — and not trying to troubleshoot their device.

USER CENTRIC DESIGNS

Our devices emphasize innovative features built to meet the needs of students and teachers, ensuring ease of use, fostering creativity, and building towards a more sustainable future.

ACER FOR EDUCATION RUGGED SOLUTIONS
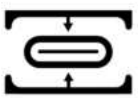

Classrooms are a busy place, and Acer's rugged devices are designed to keep both students and teachers focused on learning with peace of mind.

Built Tough

Durability is at the forefront of our designs. With reinforced corners and honeycomb interior design, our devices deliver resilient performance when subjected to the even the harshest of drop tests.

EMBRACING ICT FOR ENHANCED LEARNING: THE VARIETAS FOUNDATION AND ACER PARTNERSHIP

Varietas Foundation, a leading school group in the Netherlands, has embraced the power of Information and Communication Technologies (ICT) in education through its partnership with Acer.

With 30 locations in the Sallan and Twente region, Varietas Foundation strongly recognizes the significance of technology in students' lives. They sought a partner to supply laptops that would support their educational vision, and Acer emerged as the ideal choice.

Over the past five years, Varietas has equipped students in grades 5 to 8 with over 4,500 Acer TravelMate Spin B3 laptops. These devices boast long-lasting battery life and rugged designs, ensuring durability and sustainability. They offer versatility with a compact form factor and a 360-degree hinge, allowing them to transform into tablets. Equipped with a world-facing camera, HD touch screen, and a dockable Wacon pen, students can engage in interactive learning experiences.

The partnership between Varietas Foundation and Acer has empowered digital learning, creating an environment where technology seamlessly enhances the educational journey.

DRIVING MALAYSIA'S FUTURE: ACER AND CITY UNIVERSITY EMPOWER STUDENTS WITH CUTTING-EDGE TECHNOLOGY

Acer Malaysia has collaborated with City University to provide students with a world-class technology experience. By equipping every student with an Acer TravelMate laptop, the partnership aims to empower students with the tools they need for hybrid studies.

In the modern era of online classes and remote meetings, portability and accessibility are crucial. The Acer TravelMate P2 laptops offer a lightweight yet durable chassis, and long-lasting battery life, ensuring students can carry the device throughout the day without the need for constant charging or searching for power sockets. The laptops also feature a larger screen and a high-quality webcam for interactive online classes.

The Acer TravelMate P2 laptops simplify efficient device management thanks to their cloud suite, enabling administrators to optimize resources and efficiently deploy new devices. City University's IT team can update the laptops remotely, while seamless virtual connectivity allows them to address student queries promptly.

Acer is committed to extending similar solutions to more leading educational institutions in Malaysia, ensuring students nationwide have access to world-class education and technology.

ENGINEERED DURABILITY

RUGGEDIZED

Different work environments call for different tools. Acer Enduro provides solutions for the real-life challenges that work throws your way. With engineered durability and uncompromised performance, these rugged devices allow you to stay productive in even the harshest conditions.

MILITARY GRADE RUGGEDNESS

Engineered to withstand drops onto the hardest of flooring, these rugged devices have been constructed using shock-absorbent materials and independently certified to withstand drops, falls, and water ingress. MIL-STD 810G and IP certifications give users the confidence that their equipment won't be damaged.

FIELD READY

The GPS chipset helps users find their location wherever they are. A strong, consistent wireless signal is provided by the strategically placed Wi-Fi 5 (802.11ac) wireless antenna.

SECURITY AND MANAGEMENT

Strong security is serious business and these devices come with the best. Windows-based Enduro devices offer hardware-level TPM 2.0, an anti-tampering chip, and the Acer Enduro Manageability Suite (AEMS) to help protect the device and speed up deployment of services and system configurations across many devices. For further security, it includes a fingerprint sensor and Windows Hello for quick and secure log in.

Android-based Enduro tablets speed up the deployment of services and system configurations across many devices at the same time with Acer Device Agent Deployment Assistant (DADA) software. Two customizable keys allow for quick access to important functions, while the NFC reader allows easy reading of NFC chips.

ENDURO N7

PREPARED FOR ANYTHING

Designed with mobile first responders, field, and industrial manufacturing workers in mind, this durable rugged Windows laptop will work all day no matter where you are. Its bright screen and security features give you the confidence that even when outside you can remain productive.

14" FHD 700 nit Display and 15.6" FHD 600 nit Display

MIL-STD 810G and IP65 Certification

2 Batteries: 1 Built in + 1 High Capacity

Hot Swappable Battery

ENDURO N7

ENDURO N3

THIN, LIGHT & SOLID

The thinnest and lightest 14" IP53-rated rugged laptop is designed for mobile professionals who require extra reliability on top of premium level security. Combining Military Standard (MIL-STD 810G) durability, IP53 certification, and a unique Aquafan™ designed to repel water and drops from all angles, the Enduro N3 is ready and able to meet the demands of your work.

Just 1.985 kg and 2.485 mm High

MIL-STD 810G and IP53 Level Certification

Trusted Platform Module (TPM) 2.0

Shock-absorbent Corners and Reinforced Design

ENDURO T5

TOUGH AND LIGHT

This durable 10.1" thin and light rugged tablet is designed for the hard knocks and spills of an industrial environment. The rugged certifications and industry standard security ensure this is a tablet you can trust.

ACCELERATING STEM INNOVATORS

In a groundbreaking collaboration, Acer and Alfa Romeo Racing ORLEN joined forces to ignite a passion for STEM (Science, Technology, Engineering, and Mathematics) education. The "Driving Innovators in STEM" project seamlessly bridges the gap between academia and industry, inspiring students to embark on STEM studies while showcasing the real-world applications of their knowledge.

Through captivating video lab sessions, students delve into the world of Formula 1 racing alongside Sauber Group engineers and team managers. These mentors share their remarkable career journeys, emphasizing the pivotal role of scientific expertise in their work. Along the way, Acer's ConceptD product line, including the ConceptD 5, ConceptD 7 Ezel, and ConceptD 300, empowers the racing team with unrivaled performance, precision, and speed.

With STEM skills predicted to be in high demand for 75% of all future jobs, the project emphasizes the immense opportunities that await those well-versed in these fields.
The collaboration also encourages more young women to pursue STEM studies through "Women_In <tech>" interviews, shedding light on gender inclusion and diversity in the tech industry and fostering a more inclusive and innovative future.

As a pinnacle of this transformative journey, students earn an exclusive six-month internship at Sauber Motorsport headquarters in Hinwil, Switzerland. This hands-on experience provides them with invaluable insights and practical knowledge in specific areas of engineering, propelling their future careers.

REVOLUTIONIZING DENTAL EDUCATION

Renowned for its century-long legacy, Kanagawa Dental University is revolutionizing dental education with Acer's cutting-edge technology. By introducing the ConceptD 7 SpatialLabs Edition, a laptop capable of displaying stereoscopic 3D images, the university empowers students to delve into the world of 3D dentistry and redefine how they learn.

As a pioneering institution in Japan, Kanagawa Dental University recognized the potential of immersive technology in dental education. The ConceptD 7 SpatialLabs Edition allows students to visualize complex dental concepts in three dimensions, providing a deeper understanding of procedures and fostering enhanced patient communication. By integrating specialized 3D software into the curriculum, students gain the ability to analyze intricate dental structures with precision and accuracy. This hands-on approach enhances their skills and prepares them for real-world scenarios, ensuring they are well equipped to provide exceptional dental care.

The impact extends beyond the university's classrooms. Kanagawa Dental University Hospital has also embraced the ConceptD 7 SpatialLabs Edition, allowing doctors and dental technicians to explore the potential of stereoscopic 3D in their professional practice. This collaboration between Acer and the university is transforming the future of dental care, setting new standards for the industry.

By harnessing the power of 3D dentistry, the university is paving the way for improved patient care and inspiring dental institutions worldwide to embrace innovative solutions.

PROJECTOR SOLUTIONS FOR ANY BUSINESS VENUE

Acer projectors combine brilliant displays, high resolutions, and color enhancing features to deliver crystal clear visuals and exceptional brightness and contrast ratio in any venue.

LASER LIGHTING TECHNOLOGY

The up to 6,000 lumens generate crisp and vivid images even in bright and large environments, while guaranteeing high image quality. Unlike lamp-based projectors that block most of the light and leave only RGB, laser creates only the exact color needed, meaning it uses less power and is much brighter. 50% of power is saved compared to lamp-based projectors, while generating the same level of brightness. Laser is also a mercury-free light source.

LED LIGHTING TECHNOLOGY

LED lighting lets you enjoy outstanding color performance with up to 125% Rec. 709 wide color gamut, creating vibrant visuals and delivering consistent color saturation. Its greater durability provides a lifespan of up to 30,000 hours. In addition, by eliminating the potential pollution from mercury lamp disposal, your projector is free from environmentally hazardous substances.

WHY ACER VERO PROJECTOR?

We all deserve a Cleaner, Greener, Earth. The "Green But Mean" Vero projectors are equipped with advanced laser and LED light technology, a 30,000-hour lifespan, and up to 50% energy-saving efficiency, offering an excellent choice for daily work and entertainment. These mercury-free projectors also incorporate green materials by using up to 50% post-consumer recycled (PCR) plastic in the chassis. The Acer Vero Series projectors also support 24/7 non-stop projection, providing users with reliable and high-quality performance even for prolonged periods. Acer develops energy-efficient projectors with low environmental impact and looks forward to the sustainable future.

LED Projector

LAMP FREE, MERCURY FREE, MAINTENANCE FREE

Acer LED projectors provide brilliant image quality with Acer Colorboost LED technology. It reach full-brightness almost immediately upon being turned on, eliminating delays at the beginning of meetings, and this brightness is long lasting. This durability makes the LED projectors capable of being used under any ambient lighting, and combined with a 30,000-hour lifespan, they require remarkably little maintenance.

LED

Acer Vero PD2527i

Acer Vero PD2527i

FROM PRODUCTION TO RECYCLING, SUSTAINABILITY IS NUMBER ONE.

Acer develops lightweight, slim, energy-efficient projectors with low environmental impact. Thoughtfully designed to adapt to the planet's needs, we use 50% PCR[1] plastic in the chassis, higher efficiency than lamp model with up to 50% energy saving[2] on Acer Vero PD2527i. The Acer Vero PD2527i features 2,700 lumens with LED light source, LED is a Lamp-free technology eliminates the use of projector lamps containing mercury to help protect the environment. Acer Vero PD2527i brings presentations to life and keeps your meetings focused with clarity and precision. Its high contrast ratio and LumiSense feature enable presenting data with a clearer and sharper edge. It is also equipped with Bluelight Shield that mitigates the negative effects of blue light exposure.

1280 ×800 WXGA	1080p Resolution
LED	Acer Colorboost LED
2700 ANSI LM	2700 ANSI Lumens

1. PCR stands for 'Post-Consumer Recycled'.
2. Specifications may vary depending on model and/or region. Energy efficiency is in competition by LED model Acer Vero PD2527i and lamp model Acer G550.

Laser Projector

LONG LASTING, BEAUTIFUL & BRIGHT, LOW TCO

Acer laser projectors deliver a bright and immersive experience perfect for conference rooms, and classrooms. Laser phosphor illumination uses only a blue laser diode, combining phosphor and filter wheel, to generate primary colors. These colors are then directed to DLP chip, go through lens and create images on screen. Unlike lamp-based projector that blocks most of the light and leave only one color a time, laser creates only the exact color needed, thus using less power and is much brighter with life up to 30,000 hours[1]. Up to 50% of power are saved compared to lamp-based projector to generate same level of brightness. In short, Acer laser technology is your better choice for you choosing high brightness projector.

THE BEST SOLUTIONS TO WORK AND SHOWCASE YOUR IDEAS

DISPLAY

Without the best display, brilliant ideas cannot come to life. Acer's displays are meant to help you create your best work and showcase it effortlessly and beautifully. Be bold and create the next big idea, presentation, or design-- and leave the rest to us.

ACER DOCKING DISPLAY

Docking displays create a complete and clutter-free workspace so you only have to set up once. Boasting USB-C functionality, these displays come with a variety of features that let you effortlessly transition your laptop from a work to a home environment without the need of transferring files or the hassling with cloud storage.

ACER VISION CARE™

Acer Vision Care helps reduce eye strain and provides a more comfortable viewing experience. Acer Vision Care incorporates several features including BlueLightShield Pro, LightsSense, ColorSense, and Proxisense that take into consideration prolonged usage by heavy users such as programmers, writers, and graphic designers to reduce eye strain.

ECODISPLAY FOR SUSTAINABILITY

For Acer, embracing corporate sustainability means being a successful worldwide IT company with triple-bottom-line achievement in terms of well-balanced performance economically, environmentally, and socially. Acer actively works to fulfill its corporate responsibility by protecting the environment and helping advance global society with emphasis on Epeat, TCO, and Energy Star guidelines.

SMARTER SOLUTIONS, BETTER SECURITY & MANAGEABILITY

Define the future. For those who can drive change, it's our responsibility to guide the next steps. At Acer, we have the technology and solutions to help you be the best you can and pave the way forward together.

MILITARY GRADE RELIABILITY

High and Low Temperatures

Tested to ensure performance across all temperatures ranging from -32°C to 49°C for over 8 hours.

Humidity

Tested devices are subjected to cycles of humidity ranging from 58% to 88% over a period of 24 hours.

Drop Test

Devices are dropped 26 times from a height of 122cm (48 inches) onto each corner, side, and panel onto a 2-inch thick surface of plywood. Devices are inspected for any damage after each drop.

Rain

Devices are tested against rain exposure, subjected to water sprays from a specified height and inspected for damage afterwards.

Vibration Test

Devices were subjected to vibrational testing to ensure that all materials would be able to endure transportation and handling.

Shock Test[1]

Devices and their components are tested for their resistance to exposure to dry, blowing sand as well as how they perform in dust-laden atmospheres.

1. Tested on specific models only. See individual product pages for details.

WINDOWS SOLUTIONS

SECURITY

Acer User Sensing[1]

Protect your on-screen data with Acer User Sensing technology. The built-in ToF sensor allows for accurate detection of people based on range and movement, locking the screen when you leave and allowing you to log back in quickly when you return.

Acer ProShield Plus

Featuring file encryption, shredding, Windows Hello authentication, and more, Acer PCs loaded with Acer ProShield Plus deliver an all-in-one security solution that helps secure against unauthorized access and intrusion.

Acer PrivacyPanel[1]

Acer PrivacyPanel technology protects against prying eyes and helps keep the information on your display private. When activated, it obscures viewing angles beyond 90°, and can be switched off to make use of full viewing angles to share and collaborate.

Windows Secured-core PC

Windows Secured-core PCs from Acer offer the highest level of protection that prevents unauthorized access to the device, enables secure booting, protects from firmware vulnerabilities, and more.

1. Feature limited to select models only.

PRODUCTIVITY

Acer DustDefender[1]

Improve device longevity and maintain maximal performance with Acer DustDefender. This feature expels dust from fans when powering on your device and after every 6 hours of use, reducing dust buildup in your devices so that they always perform at their best.

Acer PurifiedVoice™[1]

Acer PurifiedVoice™ uses AI noise reduction to actively suppress background noise for both speakers and listeners. The microphone's pickup patterns can also be adjusted to suit specific scenarios, such as personal calls or group conferences.

Acer Light Sensing[1]

Equipped with an RGB sensor located next to the webcam, Acer's Light Sensing technology detects ambient lighting conditions and adjusts the display's brightness and color temperature so that the screen always looks natural and delivers an optimal viewing experience.

1. Feature limited to select models only.

DustDefender
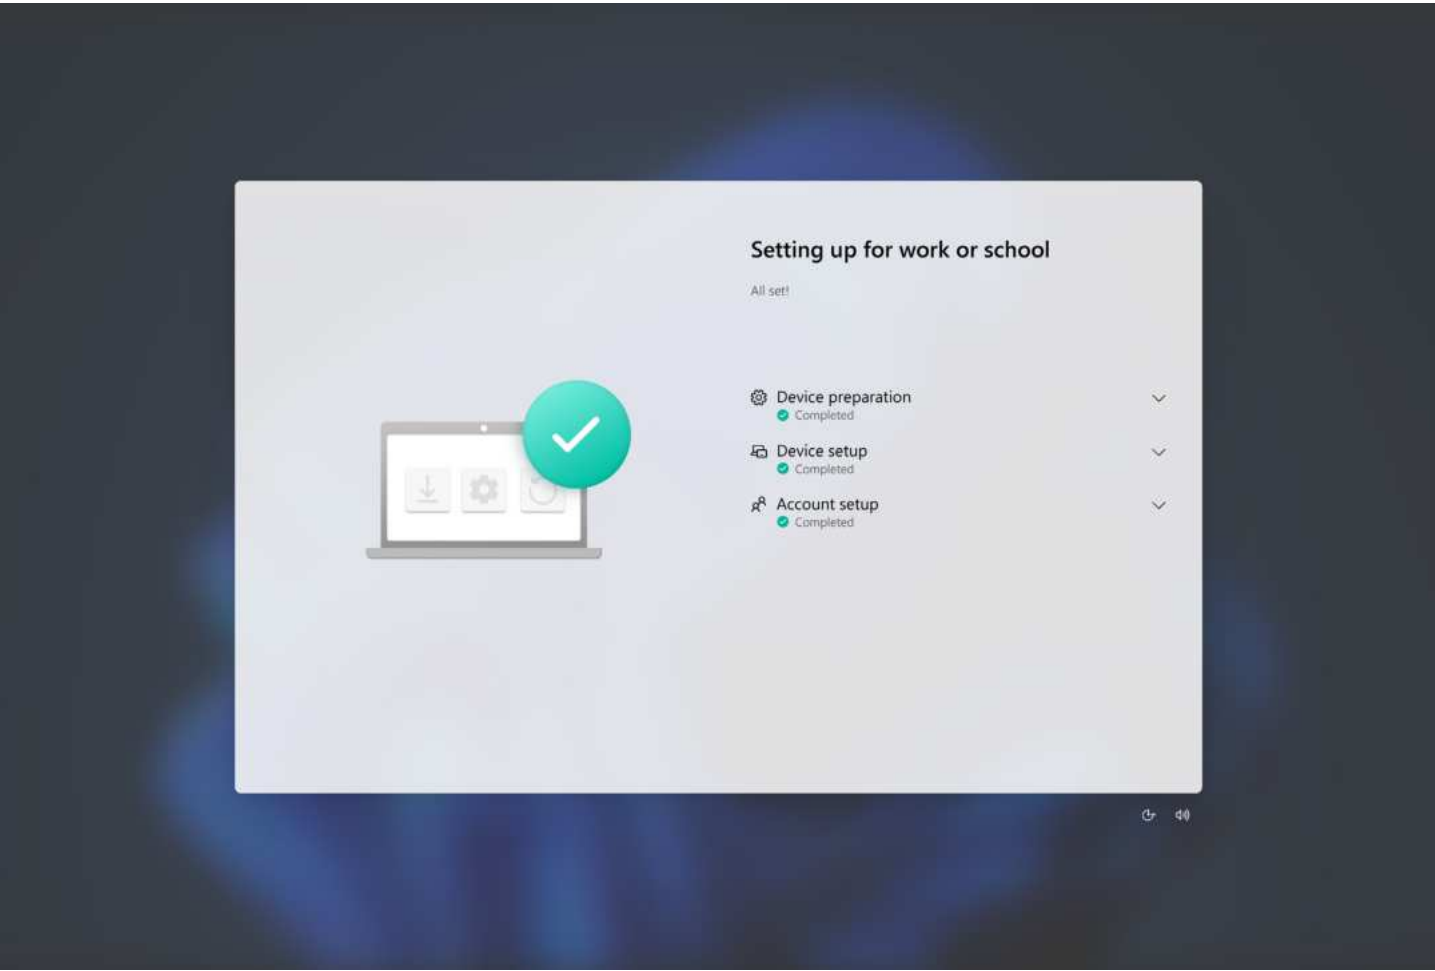

MANAGEABILITY

Acer Commercial BIOS

Simplify the device management experience with a GUI BIOS. We ensure devices remain optimized and secure with features such as diagnostic and system testing tools, USB device management, system self-healing capabilities, and more.

Acer Office Manager

Acer Office Manager (AOM) is an endpoint management solution that simplifies device management for small businesses without dedicated IT staff, enabling you to implement security policies, monitor IT assets, and schedule maintenance tasks with ease.

Windows AutoPilot

By allowing IT personnel to pre-configure devices in the cloud before they arrive in the end-users' hands, Windows AutoPilot saves time and cost by streamlining the out-of-the-box experience for end-users in enterprises or large educational organizations.

WINDOWS 11 FOR BUSINESS

Powerful Security

TravelMate laptops and Veriton desktops use Windows 11 Pro security features such as data encryption and biometric authentication to ensure your data stays safe and secure.

Modern IT Management

Advanced tools and centralized device control make it easy to manage and secure your network while improving your team's efficiency and reducing device downtime.

Enhanced Productivity

Windows 11 Pro powered Acer business laptops and desktops offer improved designs and seamless device integration to boost productivity, efficiency, and more so you can get things done even faster.

Improved Collaboration

Access your Acer business laptops from nearly anywhere thanks to the built-in security, hardware-based isolation, malware protection, and more provided by Windows 11 Pro.

WINDOWS 11 FOR EDUCATION

Unlock the power of creativity and collaboration

The most secure, accessible Windows for learning in the classroom and beyond.

Inclusive by design

Each student gets resources and support they need to reach their full potential.

Secure and scalable IT

Easily scalable solutions that safeguard students, teachers, and schools from cyberthreats, no matter where they are, now and in the future.
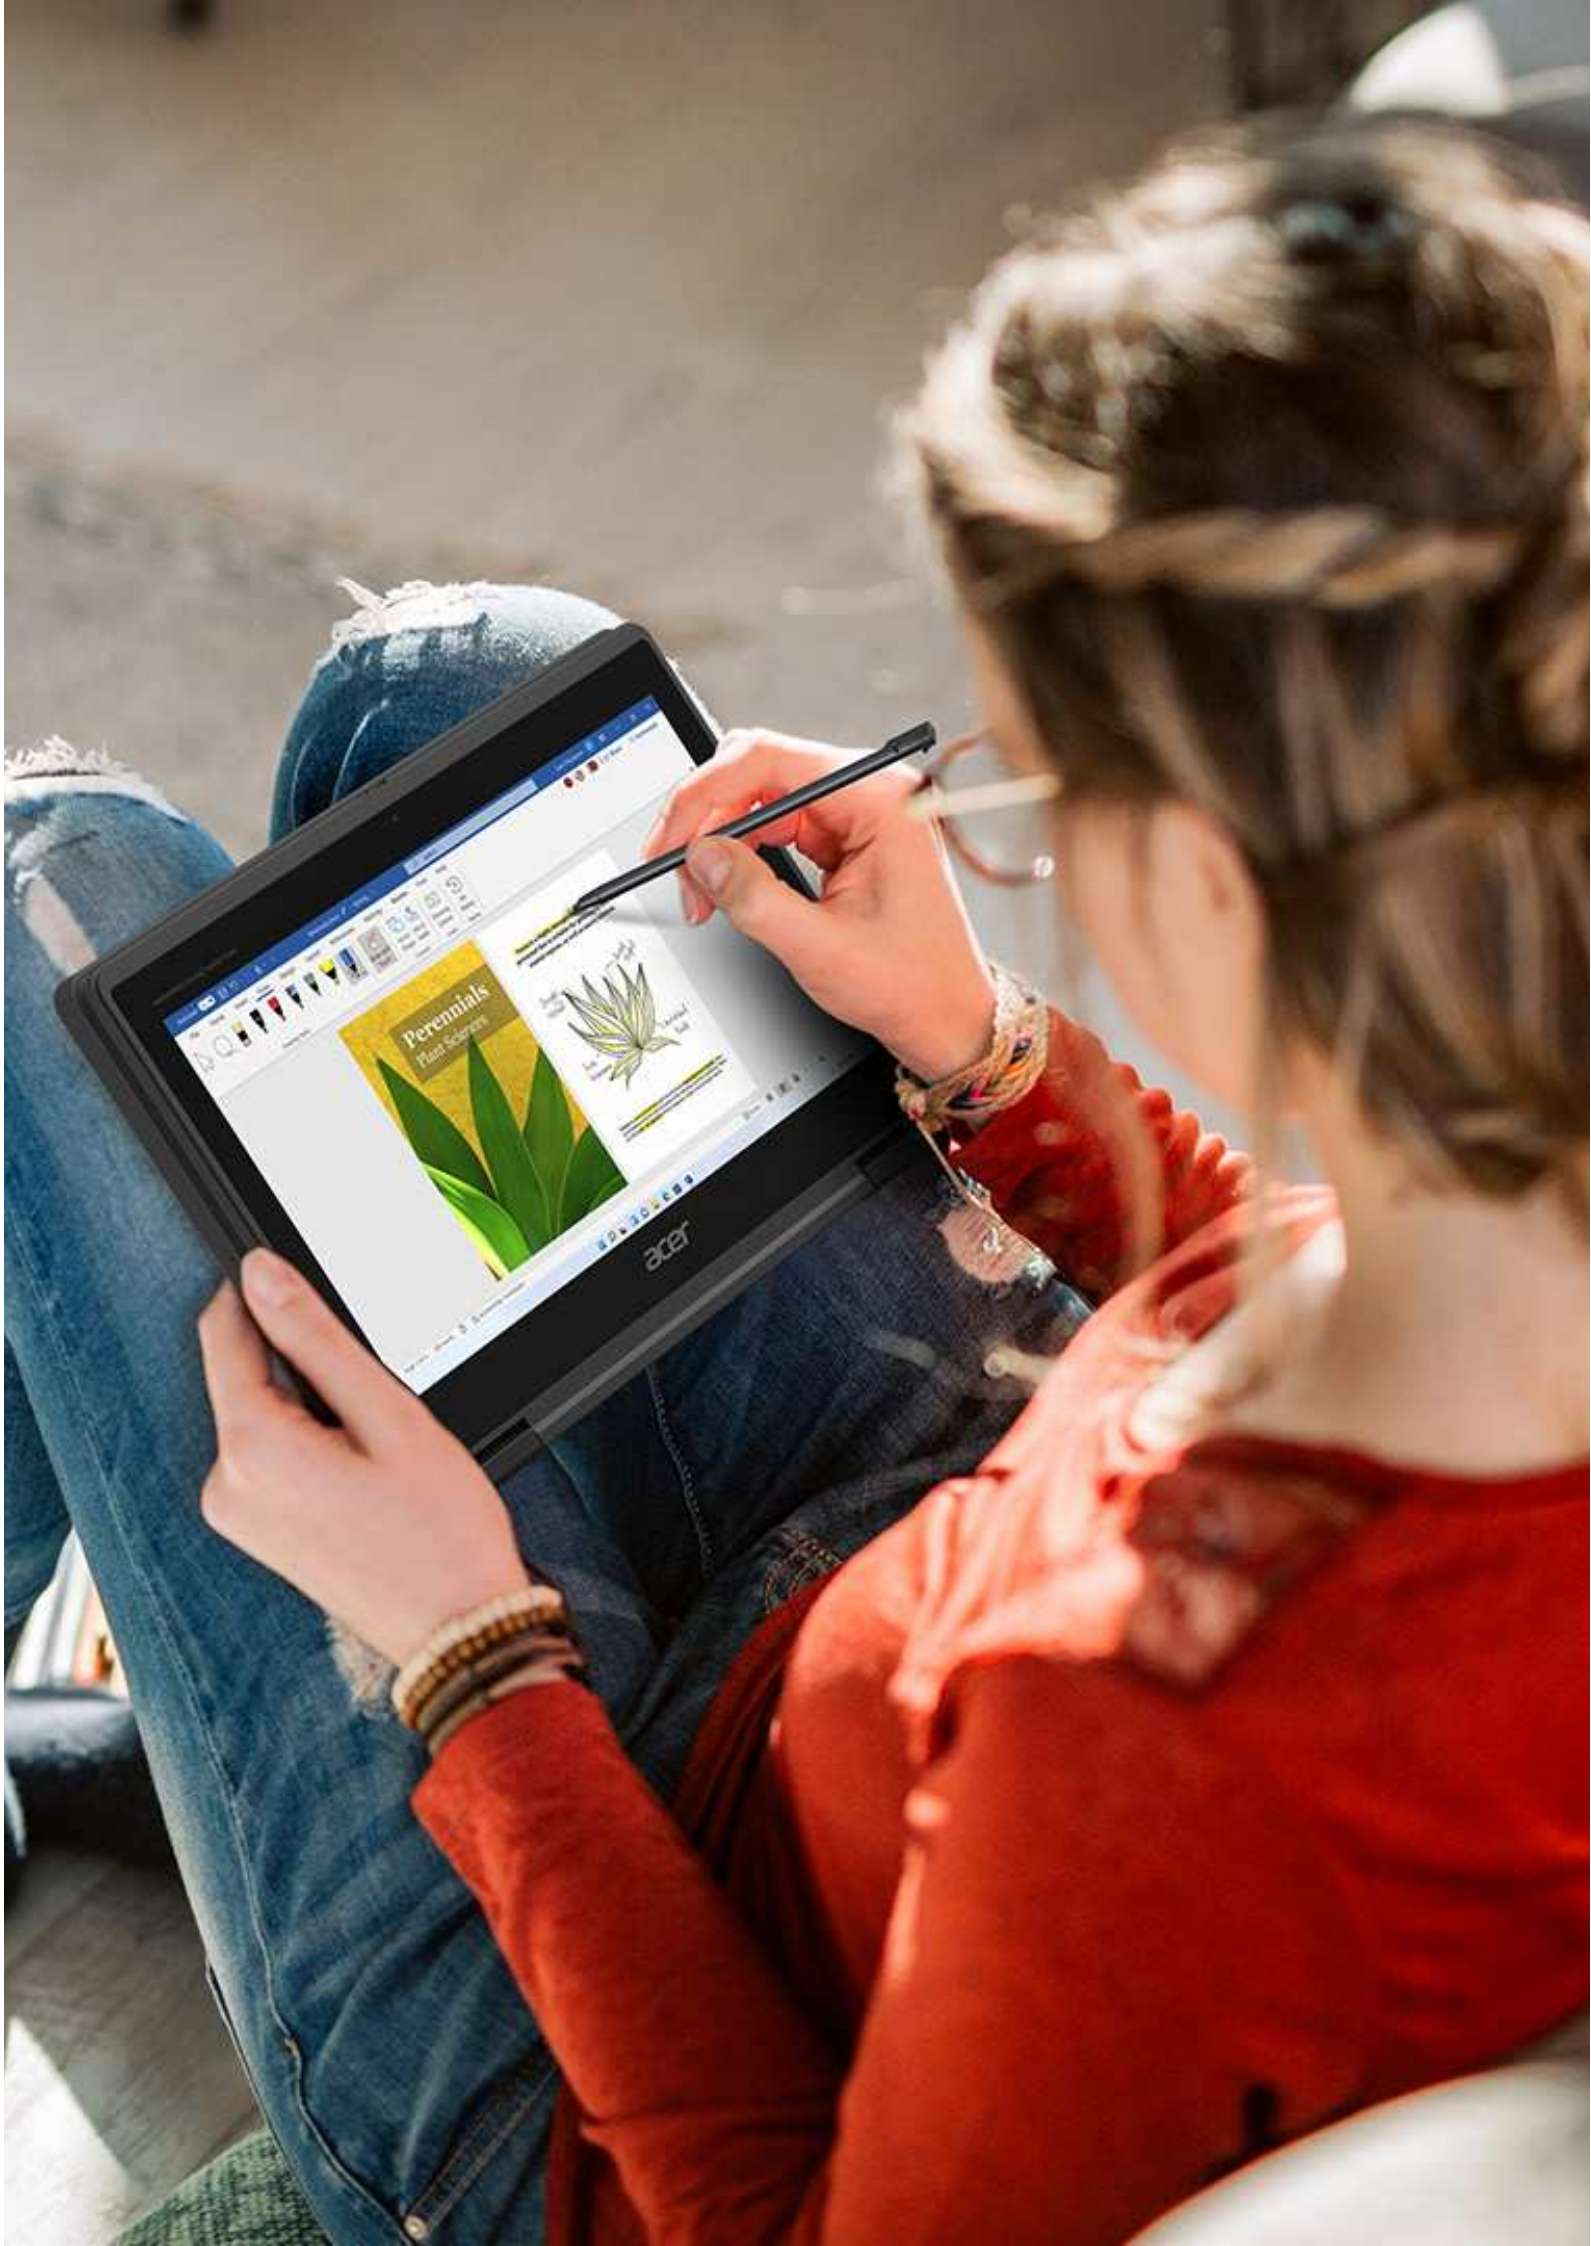

More value to advance learning

Students require knowledge, tools, and skills to succeed at school, in their career, and beyond. Gain performance on affordable devices that are built for education.

WINDOWS 11 SE

A new edition of Windows designed for K-8 education

For educators seeking cost-effective devices, Microsoft Windows 11 SE offers a simplified, secure experience for K-8 schools that is optimized for a cloud-first world featuring modern management.

Education experiences designed for all

Deliver high-quality learning tools for students of all abilities, at school or online.
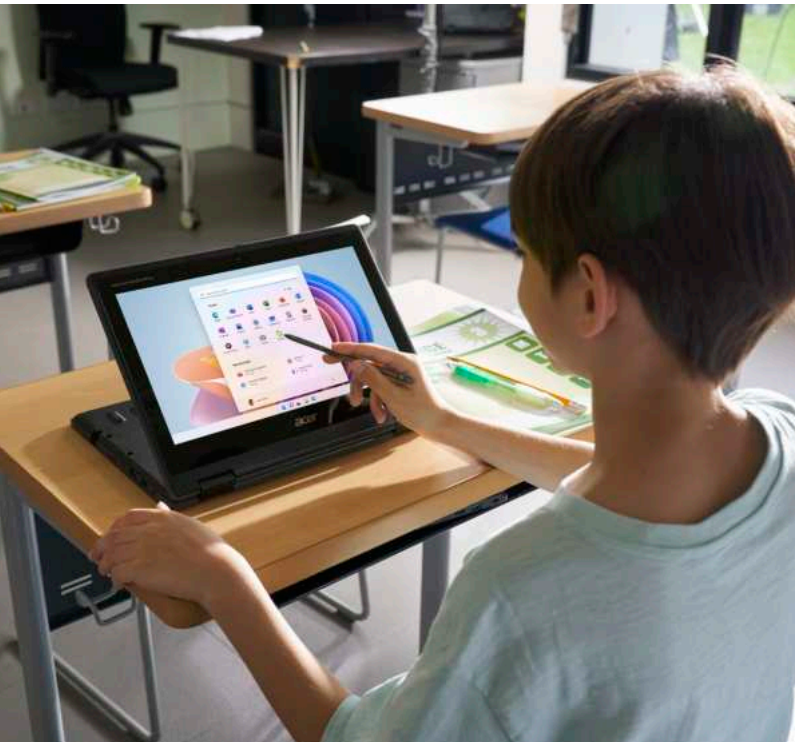

Simple to deploy, manage, and secure

Safeguard students, teachers, and schools from cyber threats, no matter where they are.

Optimized performance for low-cost devices

Gain performance on affordable devices built to empower the educational experience of elementary students and beyond.

Preparing students to be life-long learners

Whether inside or outside the classroom, Acer for Education offers rugged laptops for elementary students that help schools inspire learners to achieve their full potential in hybrid learning experiences.

ACER ANTIMICROBIAL DESIGNS

By applying antimicrobial solutions on laptops, tablets, monitors, accessories, and more, Acer Antimicrobial Designs aim to reduce the growth of microbes on the surfaces of products.

SILVER ION ANTIMICROBIAL TECHNOLOGY

Embedded in or applied onto the surface of the chassis, keyboard, display, touchpad, hinge, fingerprint reader, and more.

ANTIMICROBIAL CORNING® GORILLA® GLASS

Applied as displays and touchpads.

ACER ANTIMICROBIAL 360 DESIGN

Antimicrobial solutions on high-touch surfaces and most of the exterior area.

ACER ANTIMICROBIAL DESIGN

Antimicrobial solutions on select high-touch surfaces.

All antimicrobial solutions including silver ion antimicrobial technology and Antimicrobial Corning® Gorilla® Glass do not claim to protect users or provide any direct or implied health-benefit. The antimicrobial protection is limited to the surface of the device that protects against the build-up of microbes so that they will stay cleaner for even longer.
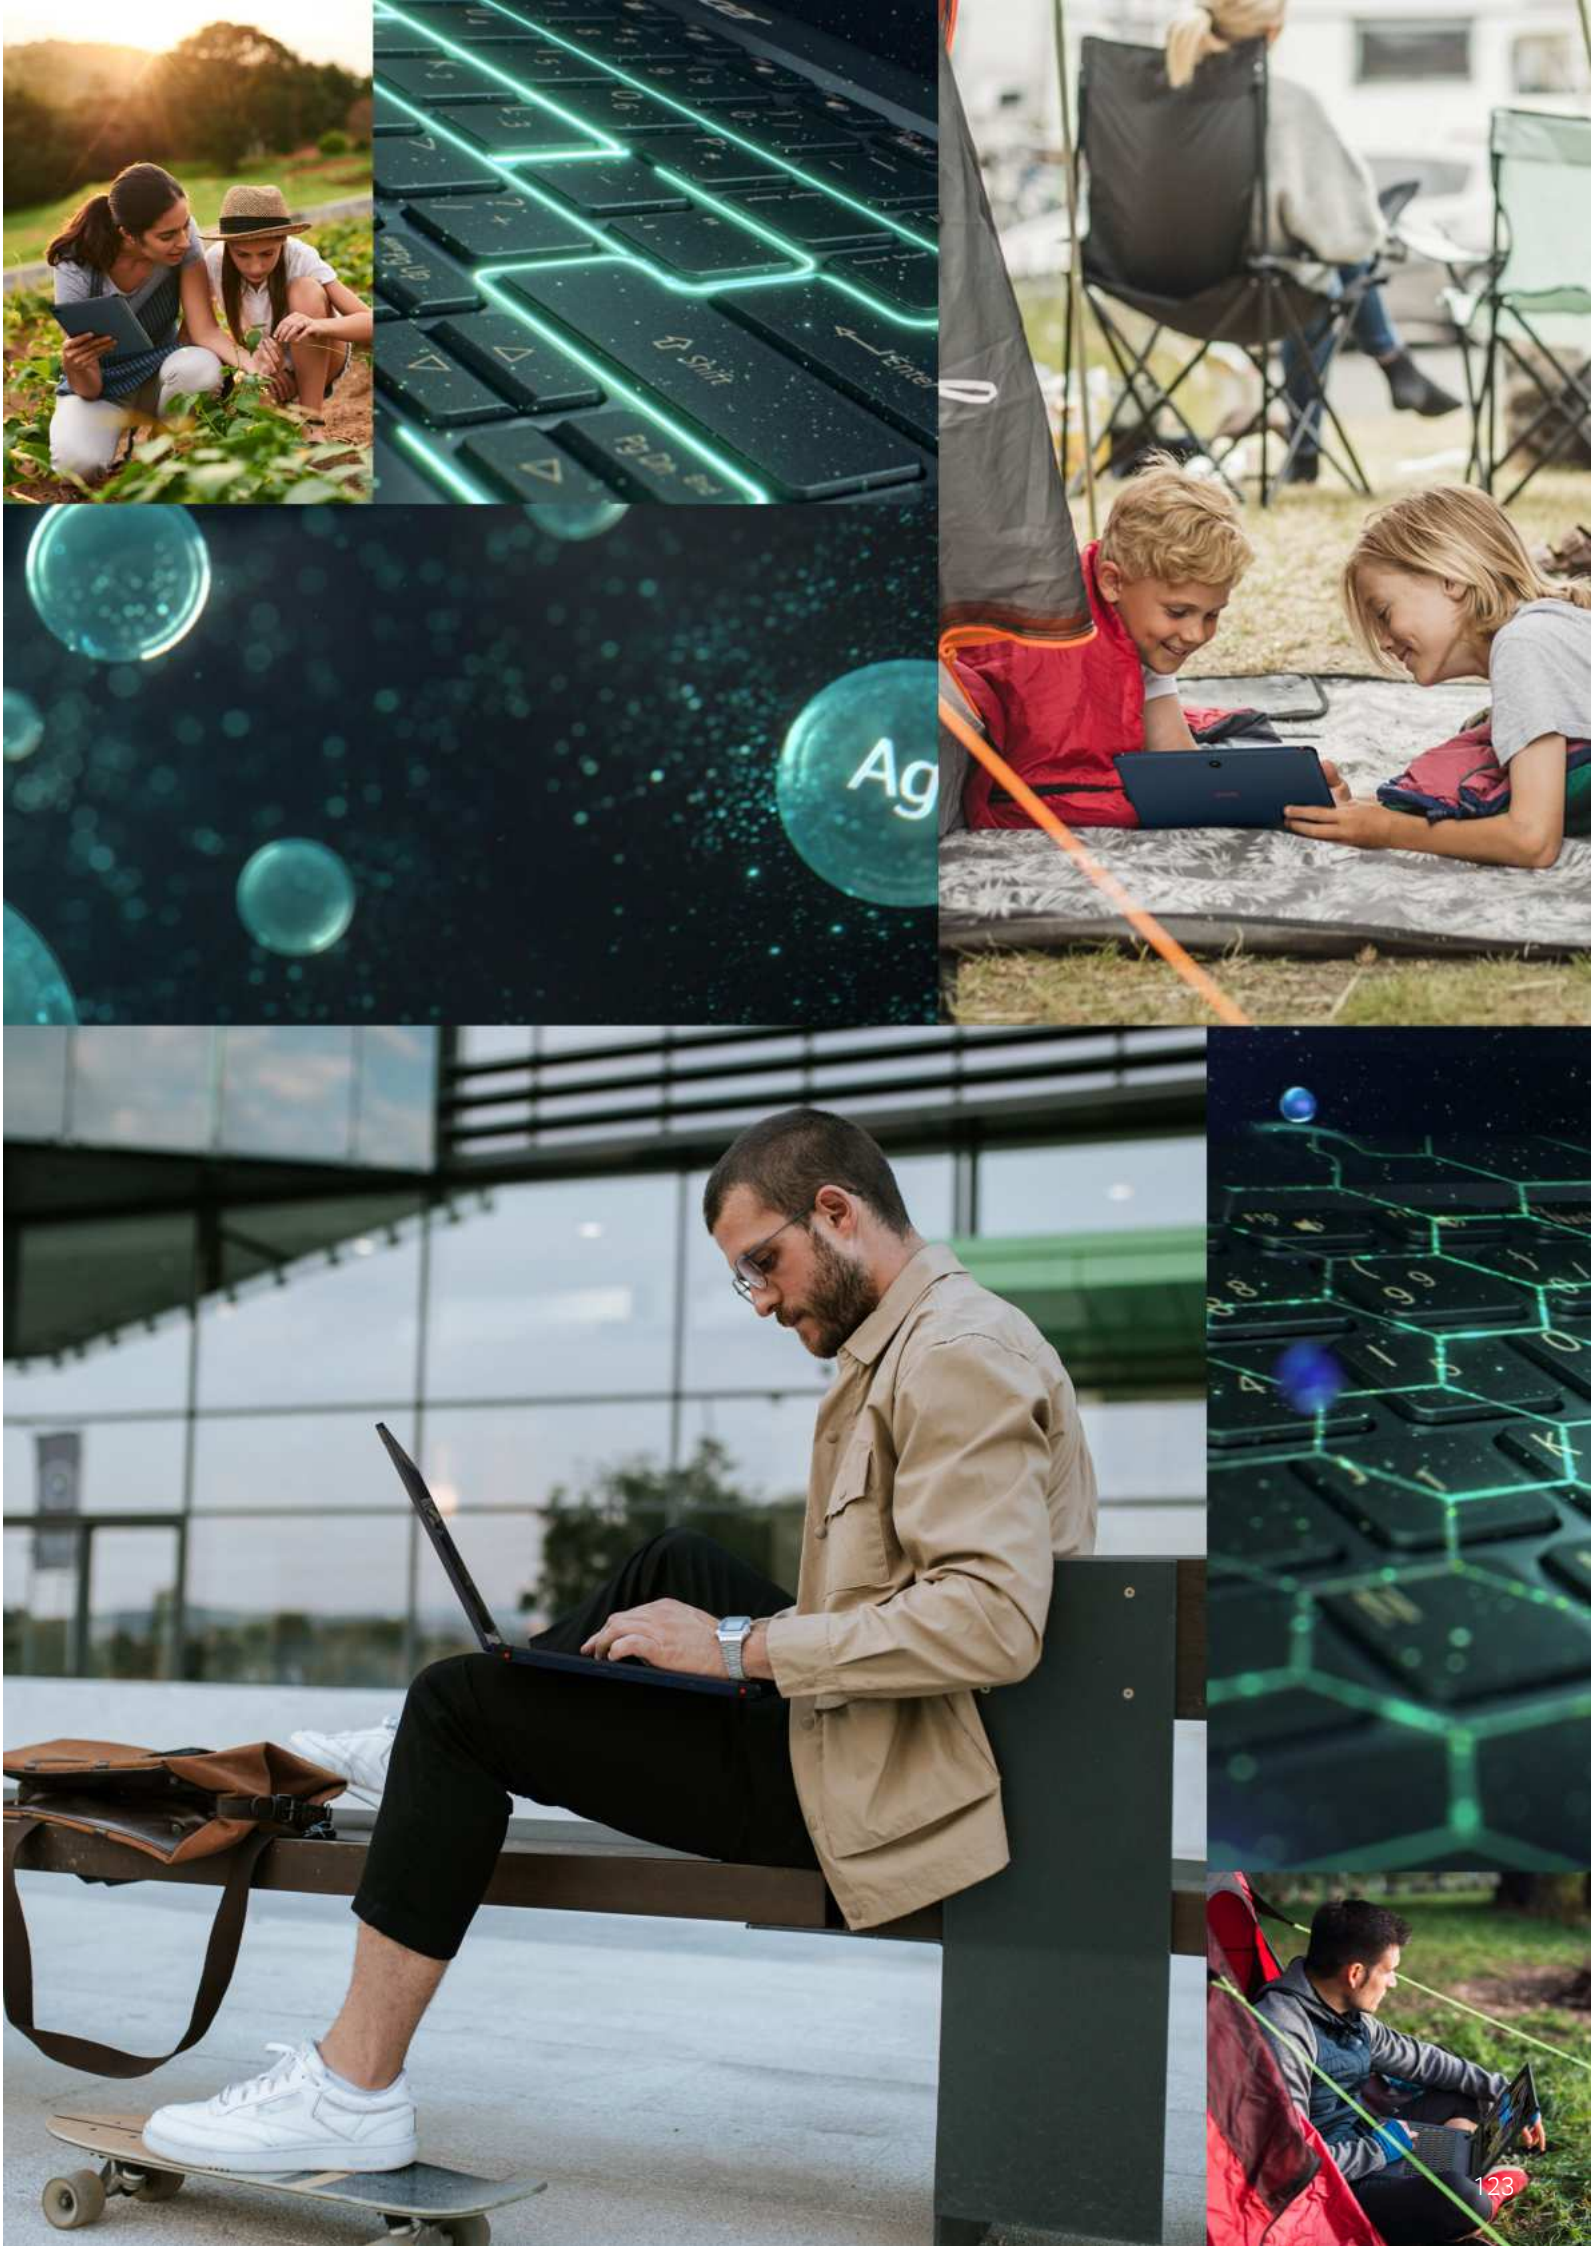

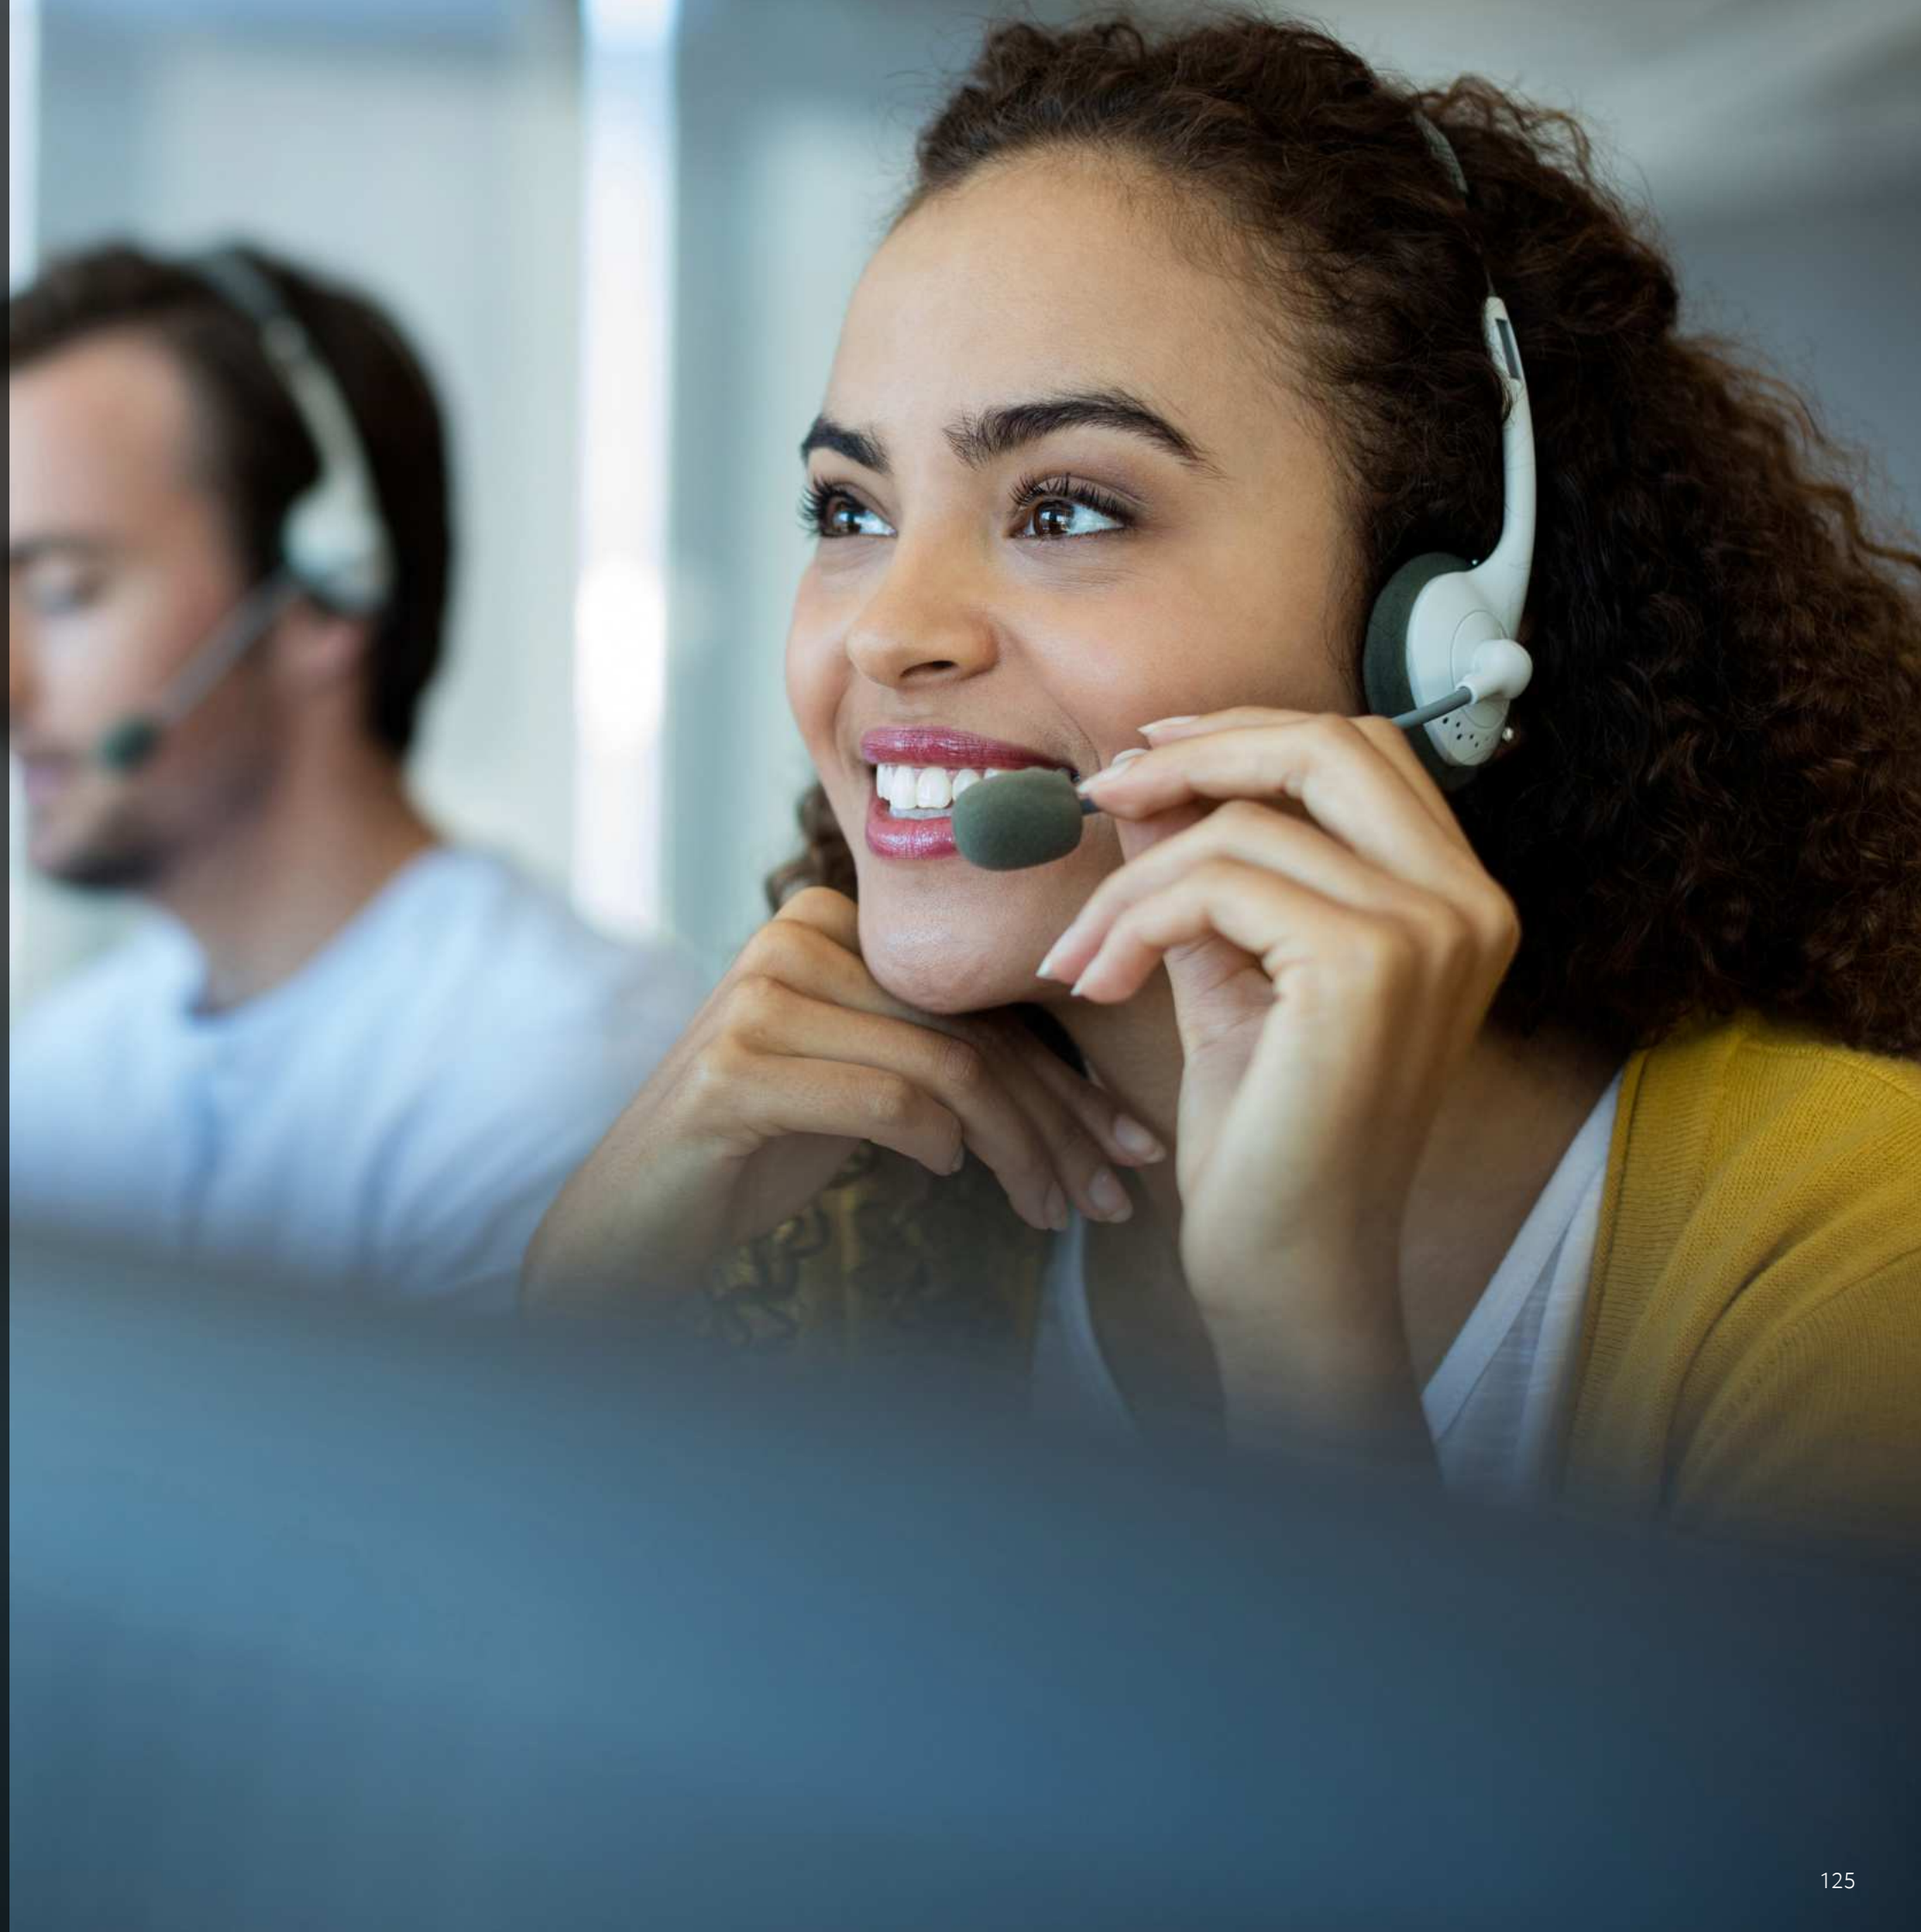

SUPPORT AND RESOURCES

We know that keeping things running smoothly requires qualified and dedicated support. For that, we're here for you and fully committed to making sure our products and services empower you more than ever before.

GLOBAL SUPPORT

WIDE NETWORK OF SERVICE

- Online warranty registration

1. Service vary depending on model and/or region.

IMPORTANT ACHIEVEMENTS AND RECOGNITIONS

REGIONAL SUPPORT

For Schools and Businesses, Best in Class Service Programs

As an Acer premier customer, you get more than just a device to work with. You receive world-class technical and administrative support from a dedicated team of experienced level 2 technicians who will engage with you to resolve your problem quickly and efficiently. If you need repairs or just technical information on the product, you can always count on the various tools provided by Acer services.

Acer Premier Care Services

Acer customers will receive direct access via a dedicated toll-free number to the team of highly trained Premier Care technicians based at our Temple, Texas, facility. In less than 16 seconds, on average, they'll be speaking with someone who has the knowledge and experience to efficiently resolve technical and administration issues. In addition, customers can order and purchase parts through Acer Premier Care and get help with system registration and warranties. No long waits on hold. No frustration with inexperienced reps. With Acer Premier Care a resolution is just a quick phone call away.

Acer Premier Care Services Customers Receive:

- U.S.-based support at no extra cost
- Experienced technicians
- Dedicated toll-free number
- Calls answered in under 16 seconds on average
- Parts ordering and purchasing
- Assistance with system and warranty registration
- Introductory "welcome" call

Self-Maintainer & ASP Program

Authorizes accounts to perform in-warranty repairs for products they purchased from Acer.

Requires signing self-maintainer or ASP contracts. Both in-warranty and out of warranty parts can be ordered from the Acer ASP website or via Premier Support. Qualified accounts may recover advanced spare parts to enable sameday repairs.

Product-specific online or in-person repair training available for qualified accounts.

Qualifying ASP accounts are eligible to receive labor reimbursements for in-warranty hardware repairs. Self-maintainer and ASP accounts can also send units to the Acer depot for repair at any point versus repairing the systems.

Acer Educare

Designed exclusively for education customers. Acer Educare targets the specific needs of resource-constrained schools delivering value-added services like battery replacements for heavily used notebooks and tablets, extended warranty and accidental damage coverage, and two-way freight for depot repairs.

Mobility Suite

The Educare Mobility Suite provides coverage for TravelMate notebooks, Chromebooks, 2-in-1 notebooks, ICONIA tablets, and Aspire cloud-based notebooks. This service coverage includes options for:

- One- or two-year extension of limited warranty depending on the purchased model
- Three-year Total Protection Upgrade (including Accidental Damage Protection)
- Premium Battery Support
- Two-way prepaid freight for depot repairs

Desktop Suite

Acer Educare Desktop Suite includes additional coverage options for Chromebox and Veriton Desktops. including Veriton Ultra Small Form Factor Desktops. Veriton Minitowers and Veriton Apo Desktops. This service includes options for:

- Next business day limited on-site service for years two and three
- Prepaid freight to and from repair depot for three years
- Mail-in/carry in depot repair coverage for years two and three
- Extension of standard warranty for years two and three

Projector Suite

Educare also offers enhanced coverage for new Acer projectors, another critical component of a school's instructional technology infrastructure. This program is offered only for projectors that have a three year base warranty and includes:

- One replacement lamp per year, with a maximum of three total
- Prepaid freight to and from repair depot for three years
